SKILLS

React	Angular
Javascript	Typescript
Nodejs	Jest
React-Native	Git and Github
Material UI	Chakra UI
NgRx	Redux

CERTIFICATIONS

Enterprise Design Thinking Practitioner
IBM

Scrum Fundamentals Certified (SFC)
SCRUM

I am an experienced software engineer with over three years experience designing and implementing intuitive and responsive user interfaces. Proficient in TypeScript and modern frontend frameworks such as React and Angular. Strong ability to translate design mockups into functional and visually appealing web applications. Proven track record of collaborating with cross-functional teams to deliver successful projects on time and on budget

WORK EXPERIENCE

Penaid
Frontend Developer (Angular)
(January 04, 2023 - September 01, 2023)

- Utilized Angular CLI for project setup, development, and testing.
- Implementation of roles and permissions features in certain components/pages, ensuring secure access to data.
- Experience with state management libraries like NgRx or RxJS for handling complex application state.
- Strong command of TypeScript and JavaScript.
- Experience with responsive and mobile-first design.
- Proficient in working with Angular Reactive Forms for handling user input and validation.
- Implementing lazy loading, caching strategies and code splitting to optimize application.

https://penaid.ng

Pericius
Senior Frontend Developer (Contract)
(August 27, 2022 - December 30, 2022)

- Managing react states with Redux and RTK query
- Building responsive website/apps
- Familiarity with popular UI component libraries like Material-UI, Ant Design, or Chakra
- Utilized React Router for creating seamless client-side routing and enhancing user navigation
- Proficiency in writing unit tests using testing frameworks such as Jest or React Testing Library
- Experience with React hooks (useState, useEffect, useContext, etc.) to manage state and side effects efficiently

Decagon
FullStack Engineer
(May 02, 2022 - November 13, 2022)

- Consuming API's and building user friendly sites with React and state management library like Redux.
- Built REST-API using nodejs, express, PostgreSQL and Mongodb.
- Using ORM such as Prisma and Sequelize for querying database.
- Consuming payment gateway (Flutterwave) to integrate in in-house application.
- Writing unit tests for all functionalities/features.

https://decagonhq.com/

Nawill IT Solutions
Full-stack Engineer
(March 22, 2021 - April 15, 2022)

- Built REST APIs that served mobile and web apps.
- Worked closely with the project manager, UI/UX designer, and quality assurance specialists/testers to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.

EDUCATION

University of Chester
Msc, Computer Science
(October 02, 2023 - November 29, 2024)
in-view

https://www1.chester.ac.uk/

ARCSSTE-E
Diploma, Remote Sensing and GIS
(October 22, 2021 - June 16, 2022)
4.26

https://arcsstee.org.ng

University of Ilorin
BSc. Statistics
(October 22, 2012 - September 16, 2016)

PROJECTS

PENAID
A finacial institution, whose primary customers are pensioners and college students

https://www.penaid.ng/

ARCSSTE-E (YEAR-BOOK)
A year-book for students, where alumni can get in touch with each other through various social media

https://arcsstee2022set.netlify.app/

MEDICINAL PLANTS GEO-LOCATION
A website to verify the location of endangered medicinal plants peculiar to a given region, gives information about such plant and its uses.

https://medicinalplantsgis.netlify.app/

COVID-19 STATS
A single page application that keeps track of the population of infected individuals in all countries.
